

## Pick-Up Truck Details

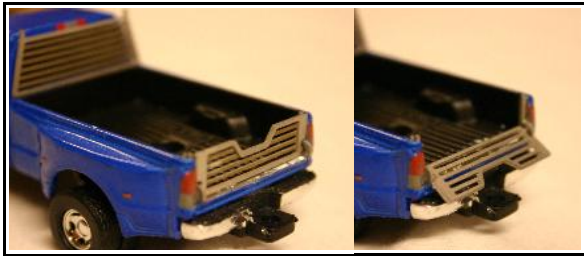

During 2011, TractorFab introduced a new line of pickup truck details. All are made from stainless steel, and are offered in plain finishes or painted black.

TractorFab is now offering a number of our items in a chrome finish. This is not a true chrome plating, but rather an electropolishing process that give the parts an ultrafine finish and chrome appearance. This provides the chrome look, without the chance of flaking or chipping.

## Implement & Tractor Details

TractorFab has positionable tarp kits available for the Kinze 1050's and the J&M and Brent Gravity Wagons. Available in white and black.

Detail your Standi rims with these detail sets. Fits banded duals 18.4x38 & 42's, and 20.8x38 & 42's. Hub kit only also available.

**Attention Implement Builders:** Supplies you need to get the job done! Cultivator Shanks, above, and 26" disc blades, spacers, and hangers, at left and below.

## Tractor Weights

Tractorfab now offers a variety of different tractor weights. All weights are made from .025' brass, and are single pieces with detail on one side.
