Item #102 & 118

Grease Guns and Tool Set

Rev 092010

Caution: Small Parts. Not recommended for children under 12 yrs of age. Use Care when handling – sharp edges. Use of this item in its intended purpose may violate the safety standards of the original item for which it is intended to be used with.

The TractorFab tool set #102 and grease gun set #118 provide ultra realism to any farm scene. The tool set includes 21 hand tools including wrenches, a C-clamp, hammers, squares, vice-grips, a filter wrench, and grease guns. The grease gun set includes 8 grease guns.

These instructions are for assembly of the grease guns. Short pieces of wire are included in the kit. Choose the desired color to simulate the grease gun barrel, and cut to length using the small gauge on the side of the kit frame.

Remove the wire from the insulation, and trim out the grease gun parts. Slide the ends of the gun into the insulation. That's it!
