Item #176

## Brush Guard

Rev 060111

Caution: Small Parts. Not recommended for children under 12 yrs of age. Use Care when handling – sharp edges. Use of this item in its intended purpose may violate the safety standards of the original item for which it is intended to be used with.

The TractorFab brush guard is designed to fit any 1/64 scale pick-up truck. Form the brush guard similar to what is shown above to match the truck you want to fit. It is best to start with a general curve to match the front shape of the grill, then bend the ends back to match the headlights. The thin bars act as doublers to the main uprights on the guard, and provide extra depth. These are optional.

Depending on your mount style, you can either drill holes in the bumper area, or glue underneath. Super glue is recommended for applying the doubler bars and for mounting.

Optionally, portions of the brush guard can be removed for more variation.

At left:

Top: bottom outer rungs have been removed.

Middle: Top center rung has been removed.

Bottom: Inner light bars have been removed.
